About IJI

The International Journal for Infonomics (IJI) is a peer reviewed quarterly publication. The IJI provides an international forum for electronic publication of high-quality scholarly papers in all areas of Digital Society and Green Computing. The scope of the IJI encompasses all aspects of the e-society (information economics, security, etc.) as well as cross-disciplinary topics and advanced applications.

ISSN 1742 4712 (Online)

Contents

Provisional Pages

A flexible and secure web service architectural model based on PKI and agent technology (<i>Maher Khemakhem, Wiem Rekik, Jacques Fayolle</i>)	293 - 302
Context-sensitive Authorization for Asynchronous Communications (<i>Vincent Hourdin, Jean-Yves Tigli, Stéphane Lavirotte, Gaëtan Rey, Michel Riveill</i>)	303 - 312
Identity Management in a Mobile Service Orientated Grid (<i>T. Kirkham, K. Konstanteli, J. Gallop, C. Lalos, I. Johnson</i>)	313 - 322
RBStreX: Hardware XML Parser for Embedded System (<i>Chee Er Chang, Faisal Mohd-Yasin, Azhar Kassim Mustapha</i>)	323 - 332
Privacy and Recovery in Composite Web Service Transactions (<i>Rattikorn Hewett, Phongphun Kijsanayothin</i>)	333 - 342
Towards Securing E-Transactions in E-Government Systems of Saudi Arabia (<i>Amina Gamlo, Omaila Bamasak</i>)	343 - 352
Examining Knowledge Capture for the B2B Domain (<i>Moses Niwe, Janis Stirna</i>)	353 - 362
An IEEE 802.21-based Approach to Integrate Unidirectional Wireless Technologies into QoS-constrained Broadband Wireless Mesh Access Networks (<i>Mathias Kretschmer, Gheorghita Ghinea</i>)	363 - 372
A Biologically-Inspired Type-2 Fuzzy Set Based Algorithm for Detecting Misbehaving Nodes in Ad-Hoc Wireless Networks (<i>Andrea Visconti, Hooman Tahayori</i>)	373 - 382
The German Wireless LAN Security Survey 2009 – How Security Measures are used in Companies and Federal Authorities? (<i>D. Fischer, B. Markscheffel</i>)	383 - 392
